

WHAT TO DO IF YOU ARE A CLOSE CONTACT OF AN INDIVIDUAL WHO HAS TESTED POSITIVE FOR COVID-19

A **CLOSE CONTACT** is anyone who was less than six feet away, for a combined total of 15 minutes or more, over a 24-hour period starting two days before the positive person took the initial test or developed symptoms.

DO YOU HAVE SYMPTOMS?

YES

Self-test immediately.

NO

Self-test 5 or more days following exposure. Wear a well-fitting mask for 10 days following exposure.

WAS YOUR TEST POSITIVE?

YES

Notify Baird Health and Counseling at bhcc@colby-sawyer.edu if you are a student. Go home if possible. Isolate for at least 5 days following exposure. To end isolation after 5 days, individuals must be fever-free for at least 24 hours without the use of fever-reducing medication and with additional symptoms improving.

Continue to wear a well-fitting mask for 10 days following exposure.

NO

Wear a well-fitting mask for 10 days following exposure. Continue to monitor for symptoms for 10 days following exposure.

If symptoms occur, self-test immediately.
